

Experience Nothing Less Than SUPERIOR!

We strive to be Superior in all aspects of our business and have always since day one. Our years of experience have shaped us, our commitment to excellence has given us focus, and our leadership has guided us.

Our Six Decades in the Making

Four generations ago, a dream turned into a reality. Superior Fisheries on Cherry Street in Grand Rapids was born. Business was good with a variety of offerings including fresh fish, seafood, and freshly fried fish and chip baskets, but the space quickly became too small for operations. In 1976, a few lots of property in the country were purchased where our soon-to-be new plant: Superior Seafoods Company, would be born. Fast forward to the current day where we are fully operational at two separate production facilities! Through all of the change and growth our mission principles have remained the same: to provide quality products, resulting in an experience that is nothing less than Superior.
