Michigan Turkey

is grower owned and proud of it. In 1998, Michigan Turkey Co-Op was founded by 15 growers who were looking for a way to bring their birds to market locally. Today, those growers sit on our board and are actively involved in the company. Being locally owned means it's easier to adapt to changing customer needs. The mission is to provide nutritious and good tasting, quality turkey products by growing, processing, and delivering a consistent, reliable, value-added commodity source for industrial foodservice and retail customers.
