

HANDY

TRUSTED SINCE 1894

Dating back to 1894, the oldest seafood processor in America holds a significant place in the history of the Eastern Shore. With a steadfast commitment to freshness and authenticity, Handy has been operating from the picturesque shores of Crisfield, Maryland, nestled on the banks of the Chesapeake Bay. Crisfield has gained recognition for its exceptional soft shell crabs, crab meat, and crab cakes, earning it the title of the "Seafood Capital of the World." As the potential for seafood was discovered long ago, this tranquil fishing town experienced rapid growth, becoming a thriving hub for all things seafood.
