

RIVER CITY MEATS

Since 1982, we've built our reputation by delivering fresh protein that performs — day in, day out, on the plate.

That same mindset is behind our new River City Meats Fresh Chicken line.

This isn't just another chicken program. It's built for kitchens where consistency matters, margins matter, and every plate reflects your standards.

Raised without growth promotants or added hormones — ever — this is clean, all-natural chicken you can stand behind. But what really separates it is how it's grown. Each bird is raised to meet spec — not cut down to fit one — giving you tighter portion control, better yields, and a more consistent cook.

And it doesn't stop there. Our program features true chef's trim — fully cleaned, no excess skin or fat, and portioned precisely to your exact specifications. That means less prep, less waste, and more control in your kitchen.

The result is a product that handles right, cooks consistently, and plates clean — making execution easier across every shift.

Sourced from trusted Midwest farm partners and processed by experienced poultry specialists, this is a program designed with the operator in mind from start to finish.

Less variability. Better performance. More confidence on every plate.

River City Meats Fresh Chicken — built for kitchens that demand it.

"Raised right. Sized right. Delivered right."

Highlights:

- ✓ Raised Right — No Growth Promotants
- ✓ No Added Hormones. Ever.
- ✓ 100% All-Natural Integrity
- ✓ Naturally Grown to Spec — Not Cut Down to Fit One
